the most ancient form of prayer is probably petition scot mcknight has set out to understand this better and guide pray ers and churches to reinvigorate their practice of asking god to you all hearts are open begins with the collects of the book of common prayer timeless prayers that have been used by christians for centuries are rooted in the catholic tradition of prayer and are deeply biblical these prayers common to churches of nearly every denomination illustrate five elements of prayer itself addressing god asking god reminding god of how god has acted in the past expecting god to answer and accessing god through christ they are the bible s pattern of petitioning god which scot mcknight seeks to rediscover a reliable path to relationship and true conversation with god

eir releases road map to the new world economic order the new silk road becomes the world land bridge eir s comprehensive study of the progress of the eur asian land bridge project which lyndon and helga larouche have championed for over 20 years has finally been completed the official release date is dec 1 the 374 page report entitled the new silk road becomes the world land bridge is nothing less than a conceptual and often physical road map to a new world economic order this path is currently being charted by the nations of the brics brazil russia india china and south africa who are leading a dynamic of global optimism toward real economic development complete with new credit institutions and major high technology projects for uplifting all mankind after an introduction by helga zepp larouche the report lays out the metrics of progress based on the economic scientific principles developed by renowned physical economist lyndon larouche it then proceeds region by region beginning with china and russia to present the stunning progress and plans which have been made toward the eur asian land bridge design that the chinese government laid out in 1996 and other nations have begun to rally behind in recent years the report complete with many full color maps of its featured development corridors is available in paperback for 50 and hard cover bound for 75

food historian emma kay tells the story of our centuries old relationship with herbs from herbalists of old to contemporary cooking this book reveals the magical and medicinal properties of your favourite plants in colorful compelling detail at one time every village in britain had a herbalist a history of herbalism investigates the lives of women and men who used herbs to administer treatment and knew the benefit of each meet dr richard shephard of preston who cultivated angelica on his estate in the eighteenth century for the sick and injured or nicholas culpeper a botanist who catalogued the pharmaceutical benefits of herbs for early literary society but herbs were not only medicinal countless cultures and beliefs as far back as prehistoric times incorporated herbs into their practices paganism witchcraft religion and even astrology take a walk through a medieval physick garden or early britain and learn the ancient rituals to fend off evil powers protect or bewitch or

even attract a lover the wake of modern medicine saw a shift away from herbal treatments with rituals and spells shrouded with superstition as the years wore on the author reveals how herbs became more culinary rather than medicinal including accounts of recent trends for herbal remedies as lockdown and the pandemic leads us to focus more on our health and wellbeing

urban transport systems worldwide are faced by a multitude of challenges among the most visible of these are the traffic gridlocks experienced on city roads and highways all over the world the prescribed solution to transport problems in most cities has thus been to build more infrastructures for cars with a limited number of cities improving public transport systems in a sustainable manner however a number of challenges faced by urban transport systems such as greenhouse gas emissions noise and air pollution and road traffic accidents do not necessarily get solved by the construction of new infrastructure planning and design for sustainable urban mobility argues that the development of sustainable urban transport systems requires a conceptual leap the purpose of transportation and mobility is to gain access to destinations activities services and goods thus access is the ultimate objective of transportation as a result urban planning and design should focus on how to bring people and places together by creating cities that focus on accessibility rather than simply increasing the length of urban transport infrastructure or increasing the movement of people or goods urban form and the functionality of the city are therefore a major focus of this report which highlights the importance of integrated land use and transport planning this new report of the united nations human settlements programme un habitat the world s leading authority on urban issues provides some thought provoking insights and policy recommendations on how to plan and design sustainable urban mobility systems the global report on human settlements is the most authoritative and up to date global assessment of human settlements conditions and trends preceding issues of the report have addressed such topics as cities in a globalizing world the challenge of slums financing urban shelter enhancing urban safety and security planning sustainable cities and cities and climate change

the world s most comprehensive well documented and well illustrated book on this subject with extensive subject and geographic index 158 photographs and illustrations mostly color free of charge in digital pdf format
