metaethics understood as a distinct branch of ethics is often traced to g e moore s 1903 classic principia ethica whereas normative ethics is concerned to answer first order moral questions about what is good and bad right and wrong metaethics is concerned to answer second order non moral questions about the semantics metaphysics and epistemology of moral thought and discourse moore has continued to exert a powerful influence and the sixteen essays here most of them specially written for the volume represent the most up to date work in metaethics after and in some cases directly inspired by the work of moore

oxford studies in metaethics is the only publication devoted exclusively to original philosophical work in the foundations of ethics it provides an annual selection of much of the best new scholarship being done in the field its broad purview includes work being done at the intersections of ethical theory with metaphysics epistemology philosophy of language and philosophy of mind the essays included in the series provide an excellent basis for understanding recent developments in the field those who would like to acquaint themselves with the current state of play in metaethics would do well to start here

g e moore s principia ethica is a landmark publication in twentieth century moral philosophy through focusing on the origin and evolution of his main doctrines this guidebook makes it clear that moore was an innovator whose provocative take on traditional philosophical problems ignited heated debates among philosophers principia ethica is an important text for those attempting to understand and engage with some major philosophical debates in ethics today the routledge guidebook to moore s principia ethica provides a comprehensive introduction to this historic text examining key moorean

themes including ethical non naturalism the naturalistic fallacy the open question argument moral ontology and epistemology ideal utilitarianism vindictive punishment and organicity moral intuition for epistemic justification in ethics theory of value ideal for anyone wanting to understand and gain perspective on moore s seminal work the book is essential reading for students of moral philosophy metaethics normative ethics philosophical analysis and related fields

connected with others

the routledge companion to ethics is an outstanding survey of the whole field of ethics by a distinguished international team of contributors over 60 chapters are divided into six clear sections the history of ethics meta ethics perspectives from outside ethics ethical perspectives morality debates in ethics the companion opens with a comprehensive historical overview of ethics including chapters on plato aristotle hume and kant and ethical thinking in china india and the arabic tradition the second part covers the domain of meta ethics the third part covers important challenges to ethics from the fields of anthropology psychology sociobiology and economics the fourth and fifth sections cover competing theories of ethics and the nature of morality respectively with entries on consequentialism kantian morality virtue ethics relativism evil and responsibility amongst many others a comprehensive final section includes the most important topics and controversies in applied ethics such as rights justice and distribution the end of life the environment poverty war and terrorism the routledge companion to ethics is a superb resource for anyone interested in the subject whether in philosophy or related disciplines such as politics education or law fully indexed and cross referenced with helpful further reading sections at the end of each chapter it is ideal for those coming to the field of ethics for the first time as well as readers already familiar with the subject

at the turn of the twentieth century g e moore contemptuously dismissed most previous ethical systems for committing the naturalistic fallacy this fallacy which has been

variously understood but has almost always been seen as something to avoid was perhaps the greatest structuring force on subsequent ethical theorising to a large extent to understand the fallacy is to understand contemporary ethics this volume aims to provide that understanding its thematic chapters written by a range of distinguished contributors introduce the history text and philosophy behind moore s charge of fallacy and its supporting open question argument they detail how the fallacy influenced multiple traditions in ethics including evolutionary religious and naturalistic approaches its connections to supposed dichotomies between is ought and facts values and its continuing relevance to our understanding of normativity together the chapters provide a historical and opinionated introduction to contemporary ethics that will be essential for students teachers and researchers

oxford studies in metaethics is the only publication devoted exclusively to original philosophical work in the foundations of ethics it provides an annual selection of much of the best new scholarship being done in the field

metaethics occupies a central place in analytical philosophy and the last forty years has seen an upsurge of interest in questions about the nature and practice of morality this collection presents original and ground breaking research on metaethical issues from some of the very best of a new generation of philosophers working in this field

in this collection of original essays on metaethics the nature of morality and the structure of moral reasoning are characterized the limits of justification in ethics are examined and the underlying rationale of moral philosophy is probed around mid century metaethics held centre stage in discussions of moral philosophy in anglo american and scandinavian philosophical environments during the 1970s its foundational position was challenged by developments within analytic philosophy itself by a renewal of systematic substantive ethics largely but not exclusively of a rawlsian inspiration and by a reinvigorated interest in substantive moral problems on the part of philosophers however as work went on

here philosophers encountered problems concerning the methods of moral reasoning and the structure of justification of moral claims that were recognized to be metaethical this led to a renewal of metaethics now freed from its previously narrow linguistic focus and aprioristic restrictions the essays in this volume contribute both to this renewal and to a continued skeptical probing of the very rationale of moral philosophy

a contemporary collection of readings in metaethics this work discusses whether moral properties exist and how they fit into the world as science conceives it it is useful for the study of metaethics at undergraduate and postgraduate level

this work on meta ethics goes beyond normative ethical issues to ask questions about the claims we make when we engage in normative ethics for example the claim that we should all be honest is normative meta ethics asks what does the should in this claim really signify

an international journal of general philosophy
